

# 2022

February

**Agnostic**

### **Panel Discussion (5.00pm to 6.30pm GMT)**

What do investors look for before investing? What makes a startup a Unicorn from day one? There are startups who struggle to get 100k funding, yet others who raise 100m with just an idea or an MVP; what makes the difference? What will be the best sectors to invest in, in 2022? Others.

### **Pitch Day (5.00pm to 6.30pm GMT)**

Sector - Agnostic

March

**HealthCare, HealthTech, DigitalHealth, BioTech, LifeScience, MedTech, MentalHealth**

### **Panel Discussion (5.00pm to 6.30pm GMT)**

The future of LifeScience, Healthcare and Mentalcare industry in the HighTech era. Can Tech make diagnoses faster and more accurate? What do we need to discover in our DNA sequence to really change the way we cure our health issues? What can help us keep our minds strong under the severe pressures associated with the high performing environment we live in today? Can a better understanding of our brain functions and composition, help the healthcare industry to be less invasive and more effective? Would it be possible one day to cure our body on the inside and not outside? Others.

### **Pitch Day (5.00pm to 7.00pm BST)**

HealthCare, HealthTech, DigitalHealth, BioTech, LifeScience, MedTech, MentalHealth, Wellness

# 2022

April

## ESG / Impact / Sustainability

### Panel Discussion (5.00pm to 6.30pm BST)

What looks like a real impact investment? Do all startups claim to be impactful, really impactful? Do they have a real positive impact on our environment and society? How do we measure impact? What will be the future of ESG? An impactful business model can be both sustainable for the environment and community and at the same time for the industry and governments? Can we align shareholder and stakeholder expectations?

### Pitch Day (5.00pm to 7.00pm BST)

ESG / Impact / Sustainability

June

## FinTech, DeFi, Blockchain, Crypto

### Panel Discussion (5.00pm to 6.30pm BST)

How blockchain and crypto are disrupting across industries and more in particular in finance and gaming. Gaming and FinTech have been the object of massive investments in the last 10 years, how it is going to look like in the future in adopting blockchain technologies. Is Crypto a real way to democratise finance? Is mining sustainable? What about the adoption of cryptocurrencies in video games? How do crypto games work? others.

### Pitch Day (5.00pm to 7.00pm BST)

FinTech, DeFi, Blockchain, Crypto.

# 2022

September

## Education, EdTech, E-Learning

### Panel Discussion (5.00pm to 6.30pm BST)

The future of our society is based on education. What is the future of the education system? How it will change in the future? How beneficial can Tech be to improve education and make it available for everyone?". Can gaming be a new way to teach the young generation and make it more attractive and interesting? others.
